

Bruno Andreu Merlot

Description:

Bruno Andreu Merlot Sans Alcool is a non-alcoholic red wine from the Languedoc in southern France. Crafted from Merlot grapes, the wine is gently dealcoholised using vacuum distillation, a method that preserves the grape's natural aromas and flavours while removing the alcohol.

Tasting notes:

Aromas of red berries and soft plum. The palate shows juicy cherry and raspberry fruit with a smooth texture and a rounded, easy finish.

Allergens: Contains sulphites.

Dish Pairing:

- Grilled vegetable skewers
- Tomato-based pasta dishes
- Roast chicken with herbs
- Lentil stew
- Semi-soft cheeses

Talking Point:

Bruno Andreu, a family producer in the Languedoc, applies the same vineyard care and blending expertise to his non-alcoholic wines as his classic range. This Merlot captures the region's sunny character while offering a genuine alternative for those seeking a red wine experience without the alcohol.
