

## Haut-Marbuzet St Estephe 2003

### **Description:**

Haut-Marbuzet 2003 from Saint-Estèphe is a full-bodied Bordeaux with a deep garnet hue, reflecting the warmth of that exceptional vintage. Predominantly Merlot and Cabernet Sauvignon, it delivers a concentrated core of blackcurrant and plum, layered with notes of graphite, leather and subtle spice. The 2003 vintage, marked by an unusually hot summer, produced wines with ripe, forward fruit yet retained the estate's classic structure, making it approachable earlier than many Saint-Estèphe wines.

### **Tasting notes:**

Blackcurrant, Plum, Cedar, Graphite, Leather, Pepper

### **Allergens:**

Contains sulphites.

### **Dish Pairing:**

- Roast lamb with rosemary
- Braised beef short ribs
- Mature hard cheeses
- Charcuterie platter

### **Talking Point:**

Château Haut-Marbuzet is known for its unorthodox winemaking within Saint-Estèphe, often using higher percentages of Merlot than neighbouring estates, which lends a softer, more approachable style. The estate is also notable for being one of the few in the Médoc where vinification often occurs in small concrete tanks rather than the more common stainless steel, preserving the fruit's character and enhancing mid-palate richness.
