Talking Point:

The word **Szamorodni** comes from the Polish phrase *samorodny*, meaning "**as it comes**". Unlike Tokaji Aszú, where only individually selected botrytised berries are used, Szamorodni is made from whole bunches harvested together, containing both healthy and noble rot-affected grapes. This centuries-old method creates a wine that is less intensely sweet than Aszú but prized for its remarkable balance of richness, freshness and complexity, making it one of Tokaj's most traditional wine styles.
